

## Advancing Pennsylvania's Aerospace Future

### Who We Are

The Aviation Foundation of Pennsylvania (AFP) is the charitable partner of the Aviation Council of Pennsylvania. Since 1998, we have been dedicated to fueling the future of aviation by investing in students, education, and workforce development across the Commonwealth.

### Mission

To expand opportunities in aviation through scholarships, industry programs, and workforce initiatives that empower students of all genders and backgrounds to take flight in aviation careers.

### Why It Matters

Pennsylvania's aviation industry is facing:

-  **Workforce shortages** across flight, maintenance, and operations.
-  **Barriers to education** for students interested in aviation careers.
-  **A need for equitable access** so that anyone—regardless of gender or background—can pursue aviation opportunities.

AFP is working to solve these challenges by connecting students, schools, and industry leaders, ensuring a strong pipeline of talent for tomorrow.

### How to Help

-  **Donate** – Every gift directly supports scholarships and programs.
-  **Refer** – Connect us with students, educators, or partners passionate about aviation.
-  **Support Our Events, Raffles & Initiatives** – Join in on our fundraising efforts that make scholarships possible.

All contributions are tax-deductible.
